ESD electronic round-nose pliers, smooth grip, with opening spring, non-reflective coating and phosphate-treated, 2-component grip

Product description

Note:
Due to the current challenges of the global procurement market, Phoenix Contact has unfortunately been forced to accept a different ESD-compliant material. In future, the tools will be supplied with plastic handles in black/turquoise. This does not affect the function or quality of the ESD pliers.

Your advantages

• Ergonomically designed two-component handles for fatigue-proof and non-slip use

• Opening spring for uniform, smooth opening

• The special conductive plastic handles ensure slow and safe removal of electrostatic energy according to standards and directives such as DIN EN 61340-5

• Mirror-polished and phosphate-treated metal surfaces for optimum rust protection and no glare when working

• Made from special high-grade tool steel

• Screwed precision joint for permanent stability and optimum results

Commercial data

Item number	1212481
Packing unit	1 pc
Minimum order quantity	1 pc
Sales key	BH31
Product key	BH3152
Catalog page	Page 403 (C-3-2019)
GTIN	4046356527132
Weight per piece (including packing)	83.2 g
Weight per piece (excluding packing)	79.3 g
Customs tariff number	82032000
Country of origin	DE
