Please be informed that the data shown in this PDF document is generated from our online catalog. Please find the complete data in the user documentation. Our general terms of use for downloads are valid.

Power cable, 5-position, PVC, gray RAL 7001, free cable end, on Socket angled M12, coding: L, cable length: 5 m, For direct current up to 12 A/63 V

## Your advantages

- · Easy and safe: 100 % electrically tested plug-in components
- · Protection against mismatching, thanks to special L-coding

## Commercial data

| Item number                          | 1424623             |
|--------------------------------------|---------------------|
| Packing unit                         | 1 pc                |
| Minimum order quantity               | 1 pc                |
| Sales key                            | BF05                |

| Shielded                                      | no  |
| Cable type                                    | PVC gray [510]                                |
| Conductor cross section                       | 5x 1.5 mm <sup>2</sup>                        |
| Wire diameter incl. insulation                | 2.35 mm ±0.05 mm                              |
| External cable diameter                       | 9.10 mm ±0.25 mm                              |
| Outer sheath, material                        | PVC   |
| External sheath, color                        | gray RAL 7001                                 |
| Conductor material                            | Bare Cu litz wires                            |
| Material wire insulation                      | PVC   |
| Single wire, color                            | brown, white, blue, black, pink               |
| Thickness, insulation                         | ≥ 0.25 mm                                     |
| Thickness, outer sheath                       | approx. 1.30 mm                               |
| Max. conductor resistance                     | ≤ 13 Ω/km (at 20 °C)                          |
| Insulation resistance                         | ≥ 1 GΩ*km (at 20 °C)                          |
| Nominal voltage, cable                        | ≤ 300 V AC                                    |
| Test voltage                                  | ≥ 3000 V AC (Spark test)                      |
| Minimum bending radius, fixed installation    | 5 x D   |
| Minimum bending radius, flexible installation | 10 x D  |
| Smallest bending radius, fixed installation   | 46 mm   |
| Smallest bending radius, movable installation | 91 mm   |
| Max. bending cycles                           | 2000000                                       |
| Flame resistance                              | According to UL 758/1581 (Cable Flame)        |
|   | according to UL 758/1581 FT1                  |
|   | According to DIN EN 60332-1-2                 |
| Resistance to oil                             | according to DIN EN 60811-404, 168 h at 60 °C |
| Ambient temperature (operation)               | -40 °C 80 °C (cable, fixed installation)      |
|   | -20 °C 80 °C (Cable, flexible installation)   |

### Environmental and real-life conditions

| Ambient conditions   |      |
|----------------------|------|
| Degree of protection | IP65 |
|                      | IP67 |
