## SIEMENS

## Data sheet

## US2:14MPX320G

Non-reversing motor starter, Size 6, Three phase full voltage, Solid-state overload relay, OLR amp range 160-630A, 220-240V 50-60Hz/DC coil, Non-combination type, Enclosure type 12, Dust/drip proof for indoors, Standard width enclosure

			ilar

product brand name	Class 14				
design of the product	Full-voltage non-reversing motor starter				
General technical data					
weight [lb]	145 lb				
Height x Width x Depth [in]	48 × 20 × 13 in				
touch protection against electrical shock	(NA for enclosed products)				
installation altitude [ft] at height above sea level maximum	6560 ft				
ambient temperature [°F]					
during storage	-22 +149 °F				
during operation	-4 +104 °F				
ambient temperature					
during storage	-30 +65 °C				
during operation	-20 +40 °C				
country of origin	USA				
Horsepower ratings					
yielded mechanical performance [hp] for 3-phase AC motor					
<ul> <li>at 200/208 V rated value</li> </ul>	150 hp				
• at 220/230 V rated value	200 hp				
• at 460/480 V rated value	400 hp				
• at 575/600 V rated value	400 hp				
Contactor					
size of contactor	NEMA controller size 6				
number of NO contacts for main contacts	3				
operating voltage for main current circuit at AC at 60 Hz maximum	600 V				
operational current at AC at 600 V rated value	540 A				
mechanical service life (operating cycles) of the main contacts typical	1000000				
Auxiliary contact					
number of NC contacts at contactor for auxiliary contacts	2				
number of NO contacts at contactor for auxiliary contacts	2				
number of total auxiliary contacts maximum	8				
contact rating of auxiliary contacts of contactor according to UL	10A@240VAC (A300), 2.5A@250VDC (Q300)				
contact rating of auxiliary contacts of contactor according to UL Coil	10A@240VAC (A300), 2.5A@250VDC (Q300)				
	10A@240VAC (A300), 2.5A@250VDC (Q300) AC/DC				
Coil					
Coil type of voltage of the control supply voltage					
Coil type of voltage of the control supply voltage control supply voltage	AC/DC				
Coil type of voltage of the control supply voltage control supply voltage • at DC rated value	AC/DC 220 240 V				

	000 1/4
apparent pick-up power of magnet coil at AC	830 VA
apparent holding power of magnet coil at AC	9.2 VA
operating range factor control supply voltage rated value of magnet coil	0.85 1.1
percental drop-out voltage of magnet coil related to the input voltage	60 %
ON-delay time	45 100 ms
OFF-delay time	60 100 ms
Overload relay	
product function	
overload protection	Yes
phase failure detection	Yes
asymmetry detection	Yes
ground fault detection	No
test function	Yes
external reset	Yes
reset function	Manual and automatic
trip class	CLASS 20
adjustable current response value current of the current- dependent overload release	160 630 A
product feature protective coating on printed-circuit board	No
number of NC contacts of auxiliary contacts of overload relay	1
number of NO contacts of auxiliary contacts of overload relay	1
operational current of auxiliary contacts of overload relay	
• at AC at 600 V	5 A
• at DC at 250 V	1A
contact rating of auxiliary contacts of overload relay according to UL	5A@600VAC (B600), 1A@250VDC (R300)
insulation voltage (Ui)	
with single-phase operation at AC rated value	600 V
with multi-phase operation at AC rated value	300 V
Enclosure	
	12
degree of protection NEMA rating	
degree of protection NEMA rating design of the housing	12 Dust tight and drip proof for indoors
degree of protection NEMA rating design of the housing Mounting/wiring	
degree of protection NEMA rating design of the housing	Dust tight and drip proof for indoors Vertical
degree of protection NEMA rating design of the housing Mounting/wiring mounting position fastening method	Dust tight and drip proof for indoors
degree of protection NEMA rating         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side	Dust tight and drip proof for indoors Vertical Surface mounting and installation
degree of protection NEMA rating         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side         tightening torque [lbf-in] for supply         type of connectable conductor cross-sections at line-side at	Dust tight and drip proof for indoors         Vertical         Surface mounting and installation         Box lug
degree of protection NEMA rating         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side         tightening torque [lbf-in] for supply	Dust tight and drip proof for indoors         Vertical         Surface mounting and installation         Box lug         180 195 lbf-in         3/0 AWG - 600 MCM (front only) or 250 - 500 MCM (back only) or 2 x 2/0 AWG
degree of protection NEMA rating         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side         tightening torque [lbf-in] for supply         type of connectable conductor cross-sections at line-side at         AWG cables single or multi-stranded	Dust tight and drip proof for indoors         Vertical         Surface mounting and installation         Box lug         180 195 lbf·in         3/0 AWG - 600 MCM (front only) or 250 - 500 MCM (back only) or 2 x 2/0 AWG - 2 x 500 MCM (both front & back)
degree of protection NEMA rating         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side         tightening torque [lbf-in] for supply         type of connectable conductor cross-sections at line-side at         AWG cables single or multi-stranded         temperature of the conductor for supply maximum permissible	Dust tight and drip proof for indoors         Vertical         Surface mounting and installation         Box lug         180 195 lbf-in         3/0 AWG - 600 MCM (front only) or 250 - 500 MCM (back only) or 2 x 2/0 AWG - 2 x 500 MCM (both front & back)         75 °C
degree of protection NEMA rating         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side         tightening torque [lbf-in] for supply         type of connectable conductor cross-sections at line-side at         AWG cables single or multi-stranded         temperature of the conductor for supply maximum permissible         type of electrical connection for load-side outgoing feeder	Dust tight and drip proof for indoors         Vertical         Surface mounting and installation         Box lug         180 195 lbf-in         3/0 AWG - 600 MCM (front only) or 250 - 500 MCM (back only) or 2 x 2/0 AWG - 2 x 500 MCM (both front & back)         75 °C         Box lug
degree of protection NEMA rating         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side         tightening torque [lbf·in] for supply         type of connectable conductor cross-sections at line-side at         AWG cables single or multi-stranded         temperature of the conductor for supply maximum permissible         type of electrical connection for load-side outgoing feeder         tightening torque [lbf·in] for load-side outgoing feeder         tightening torque [lbf·in] for load-side outgoing feeder	Dust tight and drip proof for indoors         Vertical         Surface mounting and installation         Box lug         180 195 lbf-in         3/0 AWG - 600 MCM (front only) or 250 - 500 MCM (back only) or 2 x 2/0 AWG - 2 x 500 MCM (both front & back)         75 °C         Box lug         180 220 lbf-in
degree of protection NEMA rating         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side         tightening torque [lbf-in] for supply         type of connectable conductor cross-sections at line-side at         AWG cables single or multi-stranded         temperature of the conductor for supply maximum permissible         type of electrical connection for load-side outgoing feeder         tightening torque [lbf-in] for load-side outgoing feeder         type of connectable conductor cross-sections at AWG cables for         load-side outgoing feeder single or multi-stranded         temperature of the conductor for load-side outgoing feeder         maximum permissible	Dust tight and drip proof for indoors         Vertical         Surface mounting and installation         Box lug         180 195 lbf-in         3/0 AWG - 600 MCM (front only) or 250 - 500 MCM (back only) or 2 x 2/0 AWG - 2 x 500 MCM (both front & back)         75 °C         Box lug         180 220 lbf-in         2 x 2/0 AWG - 500 MCM
degree of protection NEMA rating         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side         tightening torque [lbf·in] for supply         type of connectable conductor cross-sections at line-side at         AWG cables single or multi-stranded         temperature of the conductor for supply maximum permissible         type of electrical connection for load-side outgoing feeder         tightening torque [lbf·in] for load-side outgoing feeder         type of connectable conductor cross-sections at AWG cables for load-side outgoing feeder single or multi-stranded         temperature of the conductor for load-side outgoing feeder         maximum permissible         material of the conductor for load-side outgoing feeder	Dust tight and drip proof for indoors         Vertical         Surface mounting and installation         Box lug         180 195 lbf·in         3/0 AWG - 600 MCM (front only) or 250 - 500 MCM (back only) or 2 x 2/0 AWG - 2 x 500 MCM (both front & back)         75 °C         Box lug         180 220 lbf·in         2 x 2/0 AWG - 500 MCM         75 °C         Sor Lug         180 220 lbf·in         2 x 2/0 AWG - 500 MCM
degree of protection NEMA rating         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side         tightening torque [lbf-in] for supply         type of connectable conductor cross-sections at line-side at         AWG cables single or multi-stranded         temperature of the conductor for supply maximum permissible         type of electrical connection for load-side outgoing feeder         tightening torque [lbf-in] for load-side outgoing feeder         type of connectable conductor cross-sections at AWG cables for         load-side outgoing feeder single or multi-stranded         temperature of the conductor for load-side outgoing feeder         maximum permissible	Dust tight and drip proof for indoors         Vertical         Surface mounting and installation         Box lug         180 195 lbf-in         3/0 AWG - 600 MCM (front only) or 250 - 500 MCM (back only) or 2 x 2/0 AWG         - 2 x 500 MCM (both front & back)         75 °C         Box lug         180 220 lbf-in         2 x 2/0 AWG - 500 MCM         75 °C         CU
degree of protection NEMA rating         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side         tightening torque [lbf-in] for supply         type of connectable conductor cross-sections at line-side at         AWG cables single or multi-stranded         temperature of the conductor for supply maximum permissible         type of electrical connection for load-side outgoing feeder         tightening torque [lbf-in] for load-side outgoing feeder         type of connectable conductor cross-sections at AWG cables for load-side outgoing feeder         temperature of the conductor for load-side outgoing feeder         maximum permissible         material of the conductor for load-side outgoing feeder         type of electrical connection of magnet coil	Dust tight and drip proof for indoors         Vertical         Surface mounting and installation         Box lug         180 195 lbf-in         3/0 AWG - 600 MCM (front only) or 250 - 500 MCM (back only) or 2 x 2/0 AWG - 2 x 500 MCM (both front & back)         75 °C         Box lug         180 220 lbf-in         2 x 2/0 AWG - 500 MCM         75 °C         CU         screw-type terminals
degree of protection NEMA rating         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side         tightening torque [lbf-in] for supply         type of connectable conductor cross-sections at line-side at         AWG cables single or multi-stranded         temperature of the conductor for supply maximum permissible         type of electrical connection for load-side outgoing feeder         tightening torque [lbf-in] for load-side outgoing feeder         tightening torque [lbf-in] for load-side outgoing feeder         type of connectable conductor cross-sections at AWG cables for         load-side outgoing feeder single or multi-stranded         temperature of the conductor for load-side outgoing feeder         maximum permissible         material of the conductor for load-side outgoing feeder         type of electrical connection of magnet coil         tightening torque [lbf-in] at magnet coil         tightening torque [lbf-in] at magnet coil	Dust tight and drip proof for indoors         Vertical         Surface mounting and installation         Box lug         180 195 lbf-in         3/0 AWG - 600 MCM (front only) or 250 - 500 MCM (back only) or 2 x 2/0 AWG - 2 x 500 MCM (both front & back)         75 °C         Box lug         180 220 lbf-in         2 x 2/0 AWG - 500 MCM         75 °C         CU         screw-type terminals         7 10 lbf-in

	-
contacts	
tightening torque [lbf-in] at overload relay for auxiliary contacts	7 10 lbf·in
type of connectable conductor cross-sections at overload relay at AWG cables for auxiliary contacts single or multi-stranded	2 x (20 - 14 AWG)
temperature of the conductor at overload relay for auxiliary contacts maximum permissible	75 °C
material of the conductor at overload relay for auxiliary contacts	CU
Short-circuit current rating	
design of the fuse link for short-circuit protection of the main circuit required	18kA@600V (Class H or K); 100kA@600V (Class R or J)
design of the short-circuit trip	Thermal magnetic circuit breaker
maximum short-circuit current breaking capacity (Icu)	
• at 240 V	18 kA
• at 480 V	18 kA
• at 600 V	18 kA
certificate of suitability	NEMA ICS 2; UL 508
