Allen-Bradley PowerFlex 4M VSD Panel 1Pole 200V 0.37kW No EMC

Component type	Frequency converter =< 1 kV
Range	PowerFlex 4M
Model	N/A
Product status	Existing

The Allen-Bradley PowerFlex® 4M AC drive is a compact and cost-effective drive. Providing application flexibility, feed-through wiring, and ease-of programming, it is ideal for motor speed control with an easy-to-use AC drive up to 11kW.

## ELECTRICAL

Number of phases input	1
Nominal output power AC	0.37 kW
Nominal output current I2N	2.5 A
Dynamic braking transistor	No
EMC-version	No

## CONSTRUCTION

Suitable for safety functions	No
Contains keypad	Yes
Frame size	A
IP rating	IP20
