## Eaton 236544

Eaton Moeller series xPole - PXL MCB. PXL, 3-pole+N, tripping characteristic: D, rated current In: 6 A, rated switching capacity IEC/EN 60898-1: 10 kA

| General specifications  |   |
|-------------------------|---|
| PRODUCT NAME            | Eaton Moeller series xPole<br>- PXL MCB |
| CATALOG NUMBER          | 236544                                  |
| EAN                     | 4015082365448                           |
| PRODUCT<br>LENGTH/DEPTH | 80 mm                                   |
| PRODUCT HEIGHT          | 75 mm                                   |
| PRODUCT WIDTH           | 70 mm                                   |
| PRODUCT WEIGHT          | 0.42 kg                                 |
| COMPLIANCES             | RoHS conform                            |
| MODEL CODE              | PXL-D6/3N                               |

| Product specification  | S  |
|--|--|
| USED WITH  | Miniature circuit breaker<br>PXL   |
| AMPERAGE RATING  | 6 A  |
| FEATURES   | Additional equipment possible Concurrently switching Nneutral  |
| 10.10 TEMPERATURE RISE   | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 SHORT-CIRCUIT<br>RATING  | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.12 ELECTROMAGNETIC COMPATIBILITY  | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.13 MECHANICAL<br>FUNCTION   | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |
| 10.2.2 CORROSION<br>RESISTANCE   | Meets the product standard's requirements.   |
| 10.2.3.1 VERIFICATION OF THERMAL STABILITY OF ENCLOSURES                         | Meets the product standard's requirements.   |
| 10.2.3.2 VERIFICATION OF RESISTANCE OF INSULATING MATERIALS TO NORMAL HEAT       | Meets the product standard's requirements.   |
| 10.2.3.3 RESIST. OF INSUL. MAT. TO ABNORMAL HEAT/FIRE BY INTERNAL ELECT. EFFECTS | Meets the product standard's requirements.   |
| 10.2.4 RESISTANCE TO<br>ULTRA-VIOLET (UV)<br>RADIATION                           | Meets the product standard's requirements.   |
| 10.2.5 LIFTING   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.6 MECHANICAL  | Does not apply, since the  |
