Please be informed that the data shown in this PDF document is generated from our online catalog. Please find the complete data in the user documentation. Our general terms of use for downloads are valid.

Axioline E, Digital I/O device, Sercos, M12 fast connection technology, Digital inputs: 8, 24 V DC, connection technology: 4-conductor, Digital outputs: 4, 24 V DC, connection technology: 3-conductor, Plastic housing, degree of protection: IP65/IP67

# Product description

The Axioline E device is designed for use within a Sercos® network. It is used to acquire and output digital signals.

## Your advantages

- Connection to Sercos network using M12 connectors (D-coded)
- Transmission speed of 100 Mbps with a minimum cycle time of 250  $\mu s$
- · Connection of digital sensors and actuators using M12connectors (A-coded)
- · Diagnostic and status indicators
- · Short-circuit and overload protection of the sensor supply
- IP65/IP67 degree of protection

#### Commercial data

| Item number                          | 2701546             |
|--------------------------------------|---------------------|
| Packing unit                         | 1 pc                |
| Sales key                            | DR04                |
| Product key                          | DRI7DC              |
| Catalog page                         | Page 177 (C-6-2019) |
| GTIN                                 | 4046356763936       |
| Weight per piece (including packing) | 551.2 g             |
| Weight per piece (excluding packing) | 551.2 g             |
| Customs tariff number                | 85176200            |
| Country of origin                    | DE                  |

# Technical data

#### **Dimensions**

| Dimensional drawing | 212<br>185<br>190,5                          |
|---------------------|--|
| Width               | 60 mm  |
| Height              | 185 mm                                       |
| Depth               | 30.5 mm                                      |
| Drill hole spacing  | 198.5 mm                                     |
| Note on dimensions  | The height is 212 mm including fixing clips. |

# Material specifications

| Housing material | Pocan <sup>®</sup> |
|------------------|--------------------|
| Color            | anthracite         |

#### Interfaces

#### Sercos

| Number of interfaces          | 2                                |
|-------------------------------|----------------------------------|
| No. of channels               | 2                                |
| Connection method             | M12 fast connection technology   |
| Note on the connection method | D-coded                          |
| Number of positions           | 4                                |
| Transmission speed            | 100 Mbps (with auto negotiation) |

### Sercos

| Equipment type            | Sercos slave               |
|---------------------------|----------------------------|
| System-specific protocols | Sercos protocols Sercos    |
|                           | Sercos protocols S/IP      |
| Protocols supported       | HTTP                       |
|                           | TFTP                       |
|                           | FTP                        |
| Specification             | Sercos specification 1.1.2 |

## Input data

## Digital

| <b>3</b> **              |                           |
|--------------------------|---------------------------|
| Input name               | Digital inputs            |
| Description of the input | EN 61131-2 types 1 and 3  |
| Number of inputs         | 8                         |
| Cable length             | max. 30 m (to the sensor) |

2701546

| Connection method                        | M12 connector, double occupancy                                |
|--|--|
| Connection technology                    | 4-conductor  |
| Input voltage range "0" signal           | 0 V 5 V DC   |
| Input voltage range "1" signal           | 11 V DC 30 V DC  |
| Nominal input voltage U <sub>IN</sub>    | 24 V DC  |
| Nominal input current at U <sub>IN</sub> | typ. 3 mA  |
| Sensor current per channel               | typ. 75 mA (from $U_S$ )                                       |
| Total sensor current                     | max. 0.6 A (per device)  |
| Input filter time                        | < 1000 µs  |
| Protective circuit                       | Overload protection, short-circuit protection of sensor supply |

# Output data

| IC |  |
|----|--|
|    |  |
|    |  |

| Output name   | Digital outputs   |
|---|---|
| Connection method   | M12 connector (A-coded)                                       |
| Connection technology                                     | 3-conductor   |
| Number of outputs   | 4   |
| Protective circuit  | Overload protection, short-circuit protection of outputs; yes |
| Output voltage  | 24 V DC   |
| Limitation of the voltage induced on circuit interruption | -28 V17 V   |
| Maximum output current per channel                        | 2 A   |
| Nominal output voltage                                    | 24 V DC (from voltage U <sub>A</sub> )                        |
| Output voltage range                                      | 18 V DC 31.2 V DC   |
| Output voltage when switched off                          | max. 1 V  |
| Output current when switched off                          | max. 20 μA  |
| Nominal load, inductive                                   | 48 VA (1.2 H, 48 Ω, with nominal voltage)                     |
| Nominal load, ohmic                                       | 48 W (48 Ω, with nominal voltage)                             |
| Switching frequency                                       | max. 5500 per second (with at least 50 mA load current)       |
|   | max. 1 per second (with inductive load)                       |
| Reverse voltage resistance to short pulses                | Reverse voltage proof   |
| Behavior with overload                                    | Auto restart  |
| Signal delay  | max. 150 µs (when switched on)                                |
|   | max. 200 µs (when switched off)                               |
| Overcurrent shut-down                                     | min. 0.7 A  |
| Output name   | Digital outputs   |
| Connection method   | M12 connector (A-coded)                                       |
| Connection technology                                     | 3-conductor   |
| Number of outputs   | 4   |
| Protective circuit  | Overload protection, short-circuit protection of outputs; yes |
| Output voltage  | 24 V DC   |
| Limitation of the voltage induced on circuit interruption | -28 V17 V   |
| Maximum output current per channel                        | 2 A   |
| Nominal output voltage                                    | 24 V DC (from voltage U <sub>△</sub> )                        |

|  | max. 1 per second (with inductive load)                 |
| Reverse voltage resistance to short pulses | Reverse voltage proof                                   |
| Behavior with overload                     | Auto restart  |
| Signal delay                               | max. 150 μs (when switched on)                          |
|  | max. 200 μs (when switched off)                         |
| Overcurrent shut-down                      | min. 0.7 A  |

## Product properties

| Product type       | I/O component   |
|--------------------|-----------------|
| Product family     | Axioline E      |
| Туре               | Stand-Alone     |
| Special properties | Plastic housing |

## Electrical properties

### Potentials

| Voltage supply U <sub>S</sub>           | 24 V DC    |
|---|------------|
| Power supply at U <sub>S</sub>          | max. 4 A   |
| Current consumption from U <sub>S</sub> | typ. 8 mA  |
|   | max. 1.2 A |

### Supply: Module electronics and sensors

| Designation          | Supply of module electronics and sensors $(U_S)$               |
|----------------------|--|
| Connection method    | M12 connector (T-coded)  |
| Number of positions  | 4  |
| Supply voltage       | 24 V DC  |
| Supply voltage range | 18 V DC 31.2 V DC (including all tolerances, including ripple) |
| Current consumption  | typ. 140 mA ±15 % (at 24 V DC)                                 |
|                      | max. 12 A  |

# Supply: Actuators

| Designation          | Supply of actuators (U <sub>A</sub> )                          |
|----------------------|--|
| Connection method    | M12 connector (T-coded)  |
| Number of positions  | 4  |
| Supply voltage       | 24 V DC  |
| Supply voltage range | 18 V DC 31.2 V DC (including all tolerances, including ripple) |
| Current consumption  | typ. 30 mA ±15 % (at 24 V DC)                                  |
|                      | max. 12 A  |

### Electrical isolation/isolation of the voltage ranges

2701546
