SIEMENS

Data sheet

3RA2125-1DD23-0AP6

product brand name SIRIUS product designation non-fused motor starter 3RA2 design of the product direct starter manufacturer's article number sRT2023-TAP60 • of the supplied contactor SRT2023-TAP60 • of the supplied circuit-breakers SRV2011-TDA15 • of the supplied busbar adapter BUST251-5NT10 • of the supplied link module SR42921-TAA00 General technical data S00 size of the circuit-breaker S00 size of the defeder S0 product extension auxiliary switch Yes insulation voltage with degree of pollution 3 at AC rated value 690 V degree of pollution 3 surge voltage resistance rated value 6 kV shock resistance according to IEC 60068-2-27 6g / 11 ms mechanical service life (operating cycles) of contactor typical 10 000 000 type of assignment 2 Ambient conditions -20 +60 °C auting transport -55 +80 °C • during operation -25 +80 °C • during transport -55 +80 °C	
design of the product direct starter manufacturer's article number 3RT2023-1AP60 • of the supplied contactor 3RT2023-1AP60 • of the supplied circuit-breakers 3RV2011-1DA15 • of the supplied busbar adapter 8US1251-5NT10 • of the supplied link module 3RA2921-1AA00 General tochnical data size of the circuit-breaker size of the circuit-breaker S00 size of load feeder S0 product extension auxiliary switch Yes insulation voltage with degree of pollution 3 at AC rated value 690 V degree of pollution 3 surge voltage resistance rated value 6 kV shock resistance according to IEC 60068-2-27 6g / 11 ms mechanical service life (operating cycles) of contactor typical 10 000 000 type of assignment 2 Ambient conditions -20 +60 °C ambient temperature -50 +80 °C • during operation -25 +80 °C Main circuit 3 number of poles for main current circuit 3 design of the switching contact electromechanical adjustable current responsex val	
manufacturer's article number sRT2023-1AP60 • of the supplied circuit-breakers SRV2011-1DA15 • of the supplied circuit-breakers SRV2011-1DA15 • of the supplied busbar adapter BUS1251-5NT10 • of the supplied link module SR2921-1AA00 General technical data SRT2023-1AP60 size of the supplied link module SR2921-1AA00 General technical data SRT2023-1AP60 size of the circuit-breaker S00 size of the circuit-breaker S00 size of the circuit-breaker S00 size of load feeder S0 product extension auxiliary switch Yes insulation voltage with degree of pollution 3 at AC rated value 690 V degree of pollution 3 surge voltage resistance rated value 6 kV shock resistance according to IEC 60068-2-27 6g / 11 ms mechanical service life (operating cycles) of contactor typical 10 000 000 type of assignment 2 Ambient conditions -20 +60 °C ambient temperature -50 +80 °C • during operation -55 +80 °C Main circuit 3 number of poles for main current circuit 3 design of the switching contact electromechanical <	
 of the supplied contactor aft the supplied circuit-breakers aft the supplied busbar adapter aft the supplied busbar adapter aft the supplied link module aft to the circuit-breaker aft to the circuit of the circuit of the current-dependent overload release 	
• of the supplied circuit-breakers 3RV2011-1DA15 • of the supplied busbar adapter 8US1251-5NT10 • of the supplied link module 3RA2921-1AA00 General technical data size of the circuit-breaker size of load feeder S0 product extension auxiliary switch Yes insulation voltage with degree of pollution 3 at AC rated value 690 V degree of pollution 3 surge voltage resistance rated value 6 kV shock resistance according to IEC 60068-2-27 6g / 11 ms mechanical service life (operating cycles) of contactor typical 10 000 000 type of assignment 2 Ambient temperature -20 +60 °C • during operation -20 +60 °C • during storage -50 +80 °C Main circuit 3 mumber of poles for main current circuit 3 design of the switching contact electromechanical adjustable current response value current of the current- 2.2 3.2 A	
• of the supplied busbar adapter 8US1251-5NT10 • of the supplied link module 3RA2921-1AA00 General technical data size of the circuit-breaker size of load feeder S00 product extension auxiliary switch Yes insulation voltage with degree of pollution 3 at AC rated value 690 V degree of pollution 3 surge voltage resistance rated value 6kV shock resistance according to IEC 60068-2-27 6g / 11 ms mechanical service life (operating cycles) of contactor typical 10 000 000 type of assignment 2 Ambient conditions -20 +60 °C • during operation -50 +80 °C • during tansport -50 +80 °C Main circuit 3 number of poles for main current circuit 3 design of the switching contact electromechanical adjustable current response value current of the current-dependent overload release 2.2 3.2 A	
of the supplied link module SRA2921-1AA00 General technical data size of the circuit-breaker S00 size of load feeder S0 product extension auxiliary switch Yes insulation voltage with degree of pollution 3 at AC rated value 690 V degree of pollution alsurge voltage resistance rated value 690 V shock resistance according to IEC 60068-2-27 6g / 11 ms mechanical service life (operating cycles) of contactor typical 10 000 000 type of assignment 2 Ambient temperature ouring operation -20 +60 °C ouring storage ouring transport -55 +80 °C Main circuit number of poles for main current circuit adjustable current response value current of the current- dependent overload release	
General technical data size of the circuit-breaker S00 size of load feeder S0 product extension auxiliary switch Yes insulation voltage with degree of pollution 3 at AC rated value 690 V degree of pollution 3 surge voltage resistance rated value 64V shock resistance according to IEC 60068-2-27 6g / 11 ms mechanical service life (operating cycles) of contactor typical 10 000 000 type of assignment 2 Ambient conditions -20 +60 °C • during operation -20 +60 °C • during storage -50 +80 °C • during transport -55 +80 °C Main circuit 3 number of poles for main current circuit 3 design of the switching contact electromechanical adjustable current response value current of the current-dependent overload release 2.2 3.2 A	
size of the circuit-breaker S00 size of load feeder S0 product extension auxiliary switch Yes insulation voltage with degree of pollution 3 at AC rated value 690 V degree of pollution 3 surge voltage resistance rated value 6 kV shock resistance according to IEC 60068-2-27 6g / 11 ms mechanical service life (operating cycles) of contactor typical 10 000 000 type of assignment 2 Ambient conditions -20 +60 °C e during operation -20 +60 °C • during storage -55 +80 °C • during transport -55 +80 °C Main circuit 3 design of the switching contact electromechanical adjustable current response value current of the current-dependent overload release 2.2 3.2 A	
size of load feeder S0 product extension auxiliary switch Yes insulation voltage with degree of pollution 3 at AC rated value 690 V degree of pollution 3 surge voltage resistance rated value 6 kV shock resistance according to IEC 60068-2-27 6g / 11 ms mechanical service life (operating cycles) of contactor typical 10 000 000 type of assignment 2 Ambient conditions 2 ambient temperature -20 +60 °C • during operation -20 +80 °C • during storage -55 +80 °C • during transport 3 design of the switching contact electromechanical adjustable current response value current of the current-dependent overload release 2.2 3.2 A	
product extension auxiliary switch Yes insulation voltage with degree of pollution 3 at AC rated value 690 V degree of pollution 3 surge voltage resistance rated value 6 kV shock resistance according to IEC 60068-2-27 6g / 11 ms mechanical service life (operating cycles) of contactor typical 10 000 000 type of assignment 2 Ambient conditions 2 ambient temperature -20 +60 °C • during operation -55 +80 °C • during transport -55 +80 °C Main circuit 3 number of poles for main current circuit 3 design of the switching contact electromechanical adjustable current response value current of the current-dependent overload release 2.2 3.2 A	
insulation voltage with degree of pollution 3 at AC rated value 690 V degree of pollution 3 surge voltage resistance rated value 6 kV shock resistance according to IEC 60068-2-27 6g / 11 ms mechanical service life (operating cycles) of contactor typical 10 000 000 type of assignment 2 Ambient conditions 2 ambient temperature -20 +60 °C • during operation -55 +80 °C • during transport -55 +80 °C Main circuit 3 number of poles for main current circuit 3 design of the switching contact electromechanical adjustable current response value current of the current-dependent overload release 2.2 3.2 A	
degree of pollution 3 surge voltage resistance rated value 6 kV shock resistance according to IEC 60068-2-27 6g / 11 ms mechanical service life (operating cycles) of contactor typical 10 000 000 type of assignment 2 Ambient conditions 2 ambient temperature -20 +60 °C • during operation -20 +60 °C • during storage -50 +80 °C • during transport -55 +80 °C Main circuit 3 design of the switching contact electromechanical adjustable current response value current of the current-dependent overload release 2.2 3.2 A	
surge voltage resistance rated value 6 kV shock resistance according to IEC 60068-2-27 6g / 11 ms mechanical service life (operating cycles) of contactor typical 10 000 000 type of assignment 2 Ambient conditions 2 ambient temperature -20 +60 °C • during operation -20 +60 °C • during storage -55 +80 °C • during transport -55 +80 °C Main circuit 3 design of the switching contact electromechanical adjustable current response value current of the current-dependent overload release 2.2 3.2 A	
shock resistance according to IEC 60068-2-27 6g / 11 ms mechanical service life (operating cycles) of contactor typical 10 000 000 type of assignment 2 Ambient conditions 2 ambient temperature -20 +60 °C • during operation -20 +60 °C • during storage -50 +80 °C • during transport -55 +80 °C Main circuit 3 number of poles for main current circuit 3 design of the switching contact electromechanical adjustable current response value current of the current-dependent overload release 2.2 3.2 A	
shock resistance according to IEC 60068-2-27 6g / 11 ms mechanical service life (operating cycles) of contactor typical 10 000 000 type of assignment 2 Ambient conditions 2 ambient temperature -20 +60 °C • during operation -20 +60 °C • during storage -50 +80 °C • during transport -55 +80 °C Main circuit 3 number of poles for main current circuit 3 design of the switching contact electromechanical adjustable current response value current of the current-dependent overload release 2.2 3.2 A	
mechanical service life (operating cycles) of contactor typical 10 000 000 type of assignment 2 Ambient conditions 2 ambient temperature -20 +60 °C • during operation -20 +60 °C • during storage -50 +80 °C • during transport -55 +80 °C Main circuit 3 number of poles for main current circuit 3 design of the switching contact electromechanical adjustable current response value current of the current- 2.2 3.2 A	
type of assignment 2 Ambient conditions ambient temperature • during operation -20 +60 °C • during storage -50 +80 °C • during transport -55 +80 °C Main circuit 3 number of poles for main current circuit 3 design of the switching contact electromechanical adjustable current response value current of the current- 2.2 3.2 A	
Ambient conditions ambient temperature • during operation • during storage • during storage • during transport -55 +80 °C Main circuit number of poles for main current circuit design of the switching contact adjustable current response value current of the current- 2.2 3.2 A	
• during operation -20 +60 °C • during storage -50 +80 °C • during transport -55 +80 °C Main circuit -55 +80 °C number of poles for main current circuit 3 design of the switching contact electromechanical adjustable current response value current of the current- 2.2 3.2 A	
 during storage during transport -50 +80 °C during transport -55 +80 °C Main circuit number of poles for main current circuit design of the switching contact electromechanical adjustable current response value current of the current- dependent overload release 	
• during storage -50 +80 °C • during transport -55 +80 °C Main circuit -55 +80 °C number of poles for main current circuit 3 design of the switching contact electromechanical adjustable current response value current of the current- dependent overload release 2.2 3.2 A	
• during transport -55 +80 °C Main circuit 3 number of poles for main current circuit 3 design of the switching contact electromechanical adjustable current response value current of the current- dependent overload release 2.2 3.2 A	
Main circuit number of poles for main current circuit 3 design of the switching contact electromechanical adjustable current response value current of the current- dependent overload release 2.2 3.2 A	
design of the switching contact electromechanical adjustable current response value current of the current- dependent overload release 2.2 3.2 A	
design of the switching contact electromechanical adjustable current response value current of the current- dependent overload release 2.2 3.2 A	
adjustable current response value current of the current- 2.2 3.2 A dependent overload release 2.2 3.2 A	
operating voltage	
oporating totago	
• rated value 690 V	
• at AC-3 rated value maximum 690 V	
operating frequency rated value 50 60 Hz	
operational current at AC-3 at 400 V rated value 2.7 A	
operating power at AC-3	
• at 400 V rated value 1 100 W	
• at 500 V rated value 1 500 W	
Control circuit/ Control	
control supply voltage at AC	
• at 50 Hz rated value 220 V	
• at 50 Hz rated value 176 242 V	
• at 60 Hz rated value 240 V	
• at 60 Hz rated value 192 264 V	
apparent holding power of magnet coil at AC 7.2 VA	
inductive power factor with the holding power of the coil 0.28	
Auxiliary circuit	
number of NC contacts for auxiliary contacts 2	
number of NO contacts for auxiliary contacts 2	
Protective and monitoring functions	
trip class CLASS 10	
design of the overload release thermal (bimetallic)	

response value surrent of instantaneous short size it to	in unit	11 6 4			
response value current of instantaneous short-circuit tri	ip unit	41.6 A			
UL/CSA ratings	_			_	
full-load current (FLA) for 3-phase AC motor					
at 480 V rated value		2.8 A			
at 600 V rated value		3.16 A			
yielded mechanical performance [hp]					
for single-phase AC motor					
— at 110/120 V rated value		0.1 hp			
— at 230 V rated value		0.25 h	р		
 for 3-phase AC motor 					
— at 200/208 V rated value		0.5 hp			
— at 220/230 V rated value		0.75 h			
— at 460/480 V rated value		1.5 hp			
— at 575/600 V rated value		2 hp			
Short-circuit protection					
product function short circuit protection		Yes			
design of the short-circuit trip		magne	etic		
conditional short-circuit current (Iq)					
 at 400 V according to IEC 60947-4-1 rated value 		153 00	00 A		
Installation/ mounting/ dimensions					
mounting position		vertica	1		
fastening method		for sna	apping onto 60 mm busbar	systems	
height		260 m		,	
width	_	45 mm			
depth	_	155 m			
required spacing	_				
for grounded parts					
— forwards		10 mm	1		
— backwards		0 mm	1		
— upwards		30 mm			
— at the side		9 mm	I		
— downwards		10 mm	, ,		
		10 1111	I		
for live parts forwards		10 mm	、		
— forwards		10 mm	1		
— backwards		0 mm			
— upwards		30 mm			
— downwards		10 mm	1		
— at the side		9 mm			
Connections/ Terminals				_	_
type of electrical connection for main current circuit			type terminals		
type of connectable conductor cross-sections for main of stranded	contacts	1 1() mm², 2x (2.5 6 mm²)		
connectable conductor cross-section for main contacts finely stranded with core end processing		1 6 mm²			
Safety related data					
B10 value with high demand rate according to SN 3192	20	1 000	000		
proportion of dangerous failures with high demand rate according to SN 31920		73 %			
protection class IP on the front according to IEC 60529		IP20			
touch protection on the front according to IEC 60529		finger-safe, for vertical contact from the front			
Certificates/ approvals					
General Product Approval	use in haza locations	rd-	Declaration of Conform	ity	other
<u>Confirmation</u>	K X		UK CA	CE EG-Konf.	Confirmation

Further information

Siemens has decided to exit the Russian market (see here). https://press.siemens.com/global/en/pressrelease/siemens-wind-down-russian-business

Siemens is working on the renewal of the current EAC certificates.

Please contact your local Siemens office on the status of validity of the EAC certification if you intend to import or offer to supply these products to an EAC relevant market (other than the sanctioned EAEU member states Russia or Belarus). Information on the packaging
