## SIEMENS

## Data sheet

## 3RT2046-3XB40-0LA2

traction contactor, AC-3e/AC-3, 95 A, 45 kW / 400 V, 3-pole, 24 V DC, 0.7-1.25\* Us, electronic drive, with integrated varistor, auxiliary contacts: 1 NO + 1 NC, main circuit: screw terminal, control and auxiliary circuit: springloaded terminal

| product brand name  | SIRIUS                        |
|---|-------------------------------|
| product designation   | Power contactor               |
| design of the product   | With extended operating range |
| product type designation  | 3RT2                          |
| General technical data  |                               |
| size of contactor   | S3                            |
| product extension   |                               |
| <ul> <li>function module for communication</li> </ul>   | No                            |
| <ul> <li>auxiliary switch</li> </ul>  | Yes                           |
| power loss [W] for rated value of the current   |                               |
| <ul> <li>at AC in hot operating state</li> </ul>  | 19.8 W                        |
| <ul> <li>at AC in hot operating state per pole</li> </ul>   | 6.6 W                         |
| <ul> <li>without load current share typical</li> </ul>  | 1.8 W                         |
| insulation voltage  |                               |
| <ul> <li>of main circuit with degree of pollution 3 rated value</li> </ul>                                  | 1 000 V                       |
| <ul> <li>of auxiliary circuit with degree of pollution 3 rated value</li> </ul>                             | 690 V                         |
| surge voltage resistance  |                               |
| <ul> <li>of main circuit rated value</li> </ul>   | 8 kV                          |
| <ul> <li>of auxiliary circuit rated value</li> </ul>  | 6 kV                          |
| maximum permissible voltage for safe isolation between<br>coil and main contacts according to EN 60947-1    | 690 V                         |
| shock resistance at rectangular impulse   |                               |
| ● at DC   | 6.7 g / 5 ms, 4g / 10 ms      |
| shock resistance with sine pulse  |                               |
| ● at DC   | 10.6 g / 5 ms, 6.3 g / 10 ms  |
| mechanical service life (operating cycles)  |                               |
| <ul> <li>of contactor typical</li> </ul>  | 10 000 000                    |
| <ul> <li>of the contactor with added electronically optimized<br/>auxiliary switch block typical</li> </ul> | 5 000 000                     |
| <ul> <li>of the contactor with added auxiliary switch block<br/>typical</li> </ul>                          | 10 000 000                    |
| reference code according to IEC 81346-2   | Q                             |
| Substance Prohibitance (Date)   | 03/01/2017                    |
| Ambient conditions  |                               |
| installation altitude at height above sea level maximum   | 2 000 m                       |
| ambient temperature   |                               |
| <ul> <li>during operation</li> </ul>  | -40 +70 °C                    |
| <ul> <li>during storage</li> </ul>  | -55 +80 °C                    |
| relative humidity minimum   | 10 %                          |
| relative humidity at 55 °C according to IEC 60068-2-30 maximum  | 95 %                          |

| Main circuit  |                    |
|---|--------------------|
| number of poles for main current circuit  | 3                  |
| number of NO contacts for main contacts   | 3                  |
| operating voltage   |                    |
| <ul> <li>at AC-3 rated value maximum</li> </ul>   | 1 000 V            |
| <ul> <li>at AC-3e rated value maximum</li> </ul>  | 1 000 V            |
