Data sheet 3TK2810-0BA01

SIRIUS safety relay safety-oriented Standstill monitoring 24 V DC, 45 mm screw terminal EC instantaneous: 3 NO + 1 NC EC delayed: 0 SC: 3 Autostart Basic unit max. error category EN 954-1: 4 Maximum achievable PL according to EN 13849-1: Maximum achievable SIL according to IEC 61508: 3

product brand name product designation design of the product **SIRIUS**

Standstill monitor

for safe stoppage monitoring

General technical data

protection class IP of the enclosure protection class IP of the terminal touch protection against electrical shock insulation voltage rated value ambient temperature

- during storage
- during operation

air pressure according to SN 31205 relative humidity during operation installation altitude at height above sea level

maximum vibration resistance according to IEC 60068-2-6

shock resistance

surge voltage resistance rated value EMC emitted interference

installation environment regarding EMC

reference code according to DIN 40719 extended according to IEC 204-2 according to IEC 750 reference code according to EN 61346-2 number of sensor inputs

• 1-channel or 2-channel

design of the cascading

type of the safety-related wiring of the inputs product feature cross-circuit-proof Safety Integrity Level (SIL)

- according to IEC 61508
- according to IEC 62061
- for delayed release circuit according to IEC 61508

SIL Claim Limit (subsystem) according to EN 62061 performance level (PL)

• according to ISO 13849-1

category according to EN ISO 13849-1
hardware fault tolerance according to IEC 61508
safety device type according to IEC 61508-2
PFHD with high demand rate according to EN 62061
Average probability of failure on demand (PFDavg)
with low demand rate acc. to IEC 61508

IP20 IP20 finger-safe

690 V

-40 ... +75 °C -25 ... +60 °C 90 ... 106 kPa 10 ... 95 % 2 000 m

10 ... 55 Hz: 0.35 mm

8g / 10 ms 6 000 V

IEC 61000-6-2, IEC 61000-6-3

This product is suitable for Class A environments only. In household environments, this device can cause unwanted radio interference. The user is required to implement appropriate measures in this case.

Further information

Siemens has decided to exit the Russian market (see here).

https://press.siemens.com/global/en/pressrelease/siemens-wind-down-russian-business

Siemens is working on the renewal of the current EAC certificates.

Please contact your local Siemens office on the status of validity of the EAC certification if you intend to import or offer to supply these products to an EAC relevant market (other than the sanctioned EAEU member states Russia or Belarus).
