

# 440GATZA

Allen-Bradley 440G TLS GD2 Guardlock Switch Spare RFID  
Target TLSZ

## Component type

Range	TLS-Z GD2
-------	-----------

Model	N/A
-------	-----

Product status	Existing
----------------	----------

The Allen-Bradley TLS-Z GD2 Guard Locking Switch is an interlock switch featuring uniquely coded RFID door sensor with inductive door position sensing technology. Fitted with solid-state technology to support the highest level of safety it is able to detect if an actuator key breaks or becomes separated from its door mounted position.
