SIMATIC ET 200SP, Digital output module, DQ 16x 24V DC/0,5A Standard, Source output (PNP,P-switching) Packing unit: 1 piece, fits to BU-type A0, Colour Code CC00, substitute value output, module diagnostics for: short-circuit to L+ and ground, wire break, supply voltage

| General information   |  |  |
|---|--|--|
| Product type designation  | DQ 16x24VDC/0.5A ST                            |  |
| HW functional status  | From FS03                                      |  |
| Firmware version  | V0.0   |  |
| FW update possible  | No   |  |
| usable BaseUnits  | BU type A0                                     |  |
| Color code for module-specific color identification plate       | CC00   |  |
| Product function  |  |  |
| • I&M data  | Yes; I&M0 to I&M3                              |  |
| • Isochronous mode  | No   |  |
| Engineering with  |  |  |
| STEP 7 TIA Portal configurable/integrated from version          | V14  |  |
| <ul> <li>STEP 7 configurable/integrated from version</li> </ul> | V5.5 SP3                                       |  |
| <ul> <li>PCS 7 configurable/integrated from version</li> </ul>  | V8.1 SP1                                       |  |
| <ul> <li>PROFIBUS from GSD version/GSD revision</li> </ul>      | One GSD file each, Revision 3 and 5 and higher |  |
| <ul> <li>PROFINET from GSD version/GSD revision</li> </ul>      | GSDML V2.3                                     |  |
| Operating mode  |  |  |
| • DQ  | Yes  |  |
| <ul> <li>DQ with energy-saving function</li> </ul>              | No   |  |
| • PWM   | No   |  |
| <ul> <li>Oversampling</li> </ul>                                | No   |  |
| • MSO   | No   |  |
| Supply voltage  |  |  |
| Rated value (DC)  | 24 V   |  |
| permissible range, lower limit (DC)                             | 19.2 V   |  |
| permissible range, upper limit (DC)                             | 28.8 V   |  |
| Reverse polarity protection                                     | Yes  |  |
| Input current   |  |  |
| Current consumption, max.                                       | 60 mA; without load                            |  |
| output voltage / header   |  |  |
| Rated value (DC)  | 24 V   |  |
| Power loss  |  |  |
| Power loss, typ.  | 1 W  |  |
| Address area  |  |  |
| Address space per module  |  |  |
| Address space per module, max.                                  | 2 byte; + 2 bytes for QI information           |  |
| Hardware configuration  |  |  |
| Automatic encoding  | Yes  |  |
| Mechanical coding element                                       | Yes  |  |
| Type of mechanical coding element                               | Type A   |  |

| Soloction of Docal Init for connection variants                           |   |
|---|---|
| Selection of BaseUnit for connection variants                             | DII turo AO                               |
| 1-wire connection   | BU type A0                                |
| • 2-wire connection   | BU type A0 + Potential distributor module |
| 3-wire connection   | BU type A0 + Potential distributor module |
| 4-wire connection   | BU type A0 + Potential distributor module |
| Digital outputs   | 0 (4/0)/0                                 |
| Type of digital output  | Source output (PNP, current-sourcing)     |
| Number of digital outputs   | 16<br>                                    |
| Current-sinking   | No No                                     |
| Current-sourcing  | Yes                                       |
| Digital outputs, parameterizable  | Yes                                       |
| Short-circuit protection  | Yes                                       |
| Response threshold, typ.  | 1 A; 0.7 to 1.3 A                         |
| Open-circuit detection  | Yes                                       |
| Limitation of inductive shutdown voltage to                               | Typ. L+ (-50 V)                           |
| Controlling a digital input   | Yes                                       |
| Switching capacity of the outputs   | 0.5.4                                     |
| with resistive load, max.      on lamp load, max.                         | 0.5 A                                     |
| on lamp load, max.  Load resistance range.                                | 5 W                                       |
| Load resistance range  • lower limit                                      | 49.0                                      |
|   | 48 Ω                                      |
| • upper limit   | 12 kΩ                                     |
| Output current  | 0.5.4                                     |
| for signal "0" racidual current may                                       | 0.5 A<br>0.1 mA                           |
| for signal "0" residual current, max.  Output delay with resistive lead.  | U. I IIIA                                 |
| Output delay with resistive load  | E0.110                                    |
| • "0" to "1", typ.  | 50 μs                                     |
| • "1" to "0", typ.  | 100 µs                                    |
| Parallel switching of two outputs   | No  |
| <ul> <li>for uprating</li> <li>for redundant control of a load</li> </ul> | Yes                                       |
| Switching frequency   | 165                                       |
| with resistive load, max.   | 100 Hz                                    |
| with resistive load, max.     with inductive load, max.                   | 2 Hz                                      |
| on lamp load, max.  | 10 Hz                                     |
| Total current of the outputs  | 10 112                                    |
| Current per channel, max.   | 0.5 A                                     |
| Current per chainler, max.     Current per module, max.                   | 8 A                                       |
| Total current of the outputs (per module)                                 | υ <b>Λ</b>                                |
| horizontal installation   |   |
| — up to 40 °C, max.   | 8 A                                       |
| — up to 50 °С, max.   | 6 A                                       |
| — up to 60 °C, max.   | 4 A                                       |
| vertical installation   | 7.0                                       |
| — up to 30 °C, max.   | 8 A                                       |
| — up to 30°С, max. — up to 40°С, max.                                     | 6 A                                       |
| — up to 50 °С, max.   | 4 A                                       |
| Cable length  |   |
| • shielded, max.  | 1 000 m                                   |
| unshielded, max.  unshielded, max.  | 600 m                                     |
| Interrupts/diagnostics/status information                                 |   |
| Diagnostics function  | Yes                                       |
| Substitute values connectable   | Yes                                       |
| Alarms  | 160                                       |
| Diagnostic alarm  | Yes                                       |
| Diagnoses   | 165                                       |
|   | Yes                                       |
| Monitoring the supply voltage     Wire break                              |   |
| Wire-break     Short circuit to M   | Yes; Module-wise                          |
| Short-circuit to M     Short circuit to L.                                | Yes; Module-wise                          |
| Short-circuit to L+   | Yes; Module-wise                          |
| Group error   | Yes                                       |

| Diagnostics indication LED                                      |  |
|---|--|
| <ul> <li>Monitoring of the supply voltage (PWR-LED)</li> </ul>  | Yes; green PWR LED   |
| <ul> <li>Channel status display</li> </ul>                      | Yes; green LED   |
| <ul> <li>for channel diagnostics</li> </ul>                     | No   |
| <ul> <li>for module diagnostics</li> </ul>                      | Yes; green/red DIAG LED  |
| Potential separation  |  |
| Potential separation channels                                   |  |
| <ul> <li>between the channels</li> </ul>                        | No   |
| <ul> <li>between the channels and backplane bus</li> </ul>      | Yes  |
| Isolation   |  |
| Isolation tested with   | 707 V DC (type test)   |
| Standards, approvals, certificates                              |  |
| Suitable for safety functions                                   | No   |
| Suitable for safety-related tripping of standard modules        | Yes; see FAQ Entry ID: 39198632  |
| Highest safety class achievable in safety mode                  |  |
| <ul> <li>Performance level according to ISO 13849-1</li> </ul>  | PL d   |
| SIL acc. to IEC 61508   | SIL 2  |
| Ambient conditions  |  |
| Ambient temperature during operation                            |  |
| <ul> <li>horizontal installation, min.</li> </ul>               | -30 °C; < 0 °C as of FS03  |
| <ul> <li>horizontal installation, max.</li> </ul>               | 60 °C  |
| <ul> <li>vertical installation, min.</li> </ul>                 | -30 °C; < 0 °C as of FS03  |
| <ul> <li>vertical installation, max.</li> </ul>                 | 50 °C  |
| Altitude during operation relating to sea level                 |  |
| <ul> <li>Installation altitude above sea level, max.</li> </ul> | 5 000 m; Restrictions for installation altitudes > 2 000 m, see manual |
| Dimensions  |  |
| Width   | 15 mm  |
| Height  | 73 mm  |
| Depth   | 58 mm  |
| Weights   |  |
| Weight, approx.   | 30 g   |
