*1 The NX-IO Configurator runs on Windows 7 SP1, 8, 8.1, and 10.

It cannot be installed on Windows 7 without Service Pack.

*2 The CXONE-AL00D-V4 contains only the DVD installation media for users who have purchased the CX-One Version 4.□ and does not include the license number. Enter the license number of the CX-One Version 4.□ when installing.
(The license number of the CX-One Version 3.□ or lower cannot be used for installation.)

*3 This is a site license for users who want to use CX-One on many computers.

- The number of users is unrestricted for the same company and site.

- Only one license number must be managed.

- All computers that use the site license can take advantage of automatic updates and software downloads.

*4 The upgrade versions are for customers that already have CX-One Version 3.□ or lower.
