EPD24-TB-101-2A

Protection Devices for DC Load Circuits

General Information	
Extended Product Type	EPD24-TB-101-2A
Product ID	2CDE601101R2002
EAN	4016779830003
Catalog Description	Protection Devices for DC Load Circuits
Long Description	The EPD24 protection devices expand ABB's product portfolio of DIN rail mounted devices with electronic overcurrent protection modules for selective protection of 24 V DC load circuits. Faults in individual branches caused by overload or short circuit are detected and selectively switched off so that other load current paths remain unaffected by the fault. In this way straightforward, quick troubleshooting is made possible.
