NFZ62EK-23 1/5

PRODUCT-DETAILS

NFZ62EK-23 NFZ62EK-23 100-250V50/60HZ-DC Contactor Relay

General Information	
Extended Product Type	NFZ62EK-23
Product ID	1SBH136005R2362
EAN	3471523153738
Catalog Description	NFZ62EK-23 100-250V50/60HZ-DC Contactor Relay
Long Description	NFZK contactor relays are used for switching auxiliary and control circuits. NFZ contactor relays include an electronic coil interface accepting a wide control voltage Uc min Uc max. Only four coils cover control voltages between 24250 V 50/60 Hz or 12250 V DC. NF contactor relays can manage large control voltage variations. One coil can be used for different control voltages used worldwide without any coil change NFZ contactor relays allow direct control by PLC-output ≥ 24 V DC 500 mA and obtain a reduced holding coil consumption. NFZ contactor relays withstand short voltage dips and voltage sags (SEMI F47-0706 compliance) between 24250 V 50/60 Hz NFZ contactor relays have built-in surge protection and do not require additional surge suppressors. NFZK include Push-in Spring terminals. Only one push is all you need for extremely fast wiring: faster than ever installation, easier than ever wiring, reliable as ever connections. Poles: 8-pole contactor relays with a non-removable front-mounted auxiliary contact block (mechanically-linked auxiliary contacts compliant with Annex L of IEC 60947-5-1 and including the "Mechanically Linked" symbol on the contactor relay side).
