Long Description

The S802S-B16 is a 2-pole High Performance Circuit breaker with B-characteristic, with cage terminal and a rated current of 16 A. It is a current limiting device with a maximum breaking capacity of 50kA at 240/415V. It can be used for voltages up to 400/690V and in DC as well. It has two different tripping mechanisms, the thermal tripping mechanism for overload protection and the electromechanic tripping mechanism for short circuit protection. The S802S-B16 complies with IEC/EN 60898-1 and IEC/EN 60947-2 and allows the use for residential, commercial and industrial applications. It has numerous of approvals, therefore it can be used worldwide. The  $\,$ extensive range of accessory makes the use of \$802\$-B16 more comfortable. Due to the fast arc extinction of S802S-B16 your application will be secured.
